## DANIELSON

Two Extra Telegraphers at Railroad Station—Fines in Three Truancy Cases—Five Pound Trout Wary—Government to Locate Private Barbeau—Events of High School Commencement Week.

Jennings Killian, Elmville, injured in an automobile accident in Worcester a few days ago, was reported on Thursday as in a dangerous condition at a Worcester hospital.

State police officers have been working in town in this section, inspecting the weight of foodstuffs. Henry C. Denison of Bridgeport visited friends in Danielson Thursday.

Wood—Hard \$9, chestnut \$5, saved \$1 extra. H. W. Clarke—adv.

Extra Telegraphers. Two additional telegraphers have come to the Danielson railroad office, giving many extra hours of service, especially at night, for the summer season.

Truancy Cases. Truancy cases occupied the attention of the officials at Thursday morning's session of the town court. Fines were imposed in three cases, while the other cases were continued. Truancy had become such a nuisance in some villages of the town that action had to be taken to stop it.

St. James' church organization of Red Cross workers continues to be busily engaged with war work.

Does Stunts, But Won't Bite. George Spooner of North Sterling was in town Thursday and interested local fishermen with a story of a pound trout that anglers have been trying to catch out of Quonodock brook. The fish has been seen many times—but won't bite, though it will leap out of the water for cracker crumbs.

Private Barbeau to be Located. Although no word from him has been received, official advice has been received by his relatives here that Private Adelard Barbeau of the 102nd infantry will be located if possible and cared for through the Red Cross, if he can be located as a prisoner of the Germans.

Surveys for New Power Line. In the northern part of the town of Killingly above Attawaugan, and through into the town of Putnam, crossing the farm of David Clarke, surveys were at work Thursday laying out the route of what is reported will be a high tension line for the transmission of electric power. No definite information relative to the project could be obtained.

Glimpsed Big Mail Airplane. Many in this vicinity got their first look Thursday afternoon at one of the army's big biplanes, flying northward on the New York-Boston aerial mail route. The machine was flying some what lower than many ordinarily be

expected in the future, because of the clouds and a desire, no doubt, on the part of the aviator to keep tabs on ground marks over a new course. The machine was traveling at high speed, its motor popping regularly.

Commencement Week Events. Carroll B. Allen, vice president, and Harry J. Hyde, chairman of the executive committee, have sent out notices to members of the Killingly High School Alumni association that the usual annual reception to the senior class of Killingly High school will be given in the state armory, Friday evening, June 21.

Other events of commencement week include the baccalaureate sermon, Sunday, June 16; class day exercises, town hall, Thursday, June 20, in the afternoon; graduation exercises, town hall, Thursday, June 20, evening; alumni-high school baseball game, on Friday, June 21.

The meeting of the Alumni association will come in the evening.

Will Boost War Stamp Sales. Clifford H. Starkweather, of the war stamp and thrift stamp organization here, said Thursday that a meeting is to be held here Saturday to perfect an organization for boosting stamp sales in Danielson and vicinity, whose stamps are being taken in lesser quantities than in many sections of Connecticut.

During the week June 21-28 a special effort will be made to interest everyone here, men, women and children, in investing in war stamps and thrift stamps. A house-to-house canvass probably will be inaugurated and an effort made to pledge each person to take at least one stamp and as many more as possible.

Friday, June 28, will be a day of nation-wide effort to boost stamp subscriptions and a special effort to sell them will be made here.

TOUGH ON POLITICIANS

Postmaster to be Settled by Merits of Candidates.

Some of Danielson's politicians are already frisking about in an effort to have things as they would like, it is said, come out on the postoffice appointment that will follow the civil service examinations to fill the postmaster's office at Danielson. They do not seem perturbed by the fact that the examination is to be on its merits and that the best qualified citizen, whether republican or democrat, is in line for the place. They just can't forget old times, though, and are going to try to keep their fingers in the machine until someone with the power to make them do it tells them to keep them out. When things come to this, they admit, it is getting to be a cruel world!

AT HARTFORD CONFERENCE

Mrs. Rienz Robinson Especially Interested in Child Welfare, Department.

Mrs. Rienz Robinson motored to Hartford Tuesday to the conference, under the auspices of the woman's committee of the state and national councils of defense. There were two thrilling addresses by Miss Helen Fraser of Killingly and Miss Kathleen Burke of the Scottish Women's hospitals.

The morning session was of special interest to Mrs. Robinson as it was the consultation hour of the child welfare department of the woman's committee. Dr. Walter H. Brown presiding, Mrs. Robinson as chairman of the woman's committee of war activities for Killingly appointed Miss Boonhower chairman of the committee of Killingly, she has proven herself well fitted for the responsibility by the strong committee which she has gathered to her assistance. The work of the child welfare committee will be the weighing and measuring of all children under five years of age, the weighing to begin at the office of Dr. Rienz Robinson, Wednesday, Thursday and Friday of this week, 2:30 until 5:30. Miss Boonhower and Mrs. Rienz Robinson will be in charge. Mrs. Rienz Robinson will assist the mothers.

PUTNAM

Five \$100 Fines for Selling Short Weight Butter—Mail Aeroplanes Flies Over—George Howarth Gets Back to Cheshire—Funeral of Sidney Heath—Names Completing Registration List.

As a result of investigations conducted by state officers in this city, five fines aggregating \$100 were imposed Thursday at a session of the city court, Judge M. H. Geisler presiding. The fines were for selling packages of butter supposed to weigh one pound each, but actually weighing from one ounce to an ounce and a half less than a pound.

Deputy Superintendent Charles A. Fine and Inspector Walter A. Stiles of the bureau of weights and measures were the officers who worked here and the butter upon which the prosecutions were based was seized in business places in Putnam.

Investigation showed, in each of two cases, that the butter kept for sale came from farmers hereabouts and that in the other three cases the butter came into the hands of those who sold them from a distributing agency and that the butter was made in Vermont and weighed there.

Business men who were fined on Thursday have had such short weight prints of butter in their possession, in two cases, recover the amount of the fines from the farmers who sold them from a distributing agency and that the butter was made in Vermont and weighed there.
